## Objective

Highly motivated and ambitious Computer Systems Engineering student seeking opportunities to apply my technical skills and knowledge in software development. Eager to contribute to innovative projects and dynamic teams while further enhancing my expertise in programming languages, web development and cutting-edge technologies.

## Education

### DAWOOD UNIVERSITY OF ENGINEERING AND TECHNOLOGY

*Bachelor of Engineering- BE Computer System Engineering*

Karachi, Pakistan

2020 – 2024 September

## Work Experience

### Full Stack Developer([Khronix](#)):

Remote, Pakistan

October 2025 to Present

- Working across multiple technologies, building full-stack applications and simple functional websites using HTML, CSS, JavaScript, PHP, and hosting deployments.
- Developed Agentic AI agents using Google AI SDK and deployed applications on Google Cloud (GCP).
- Built responsive and dynamic web apps using React.js and Next.js; also worked with Express.js for backend APIs.

### MERN Stack Developer([InfinityXDynamics](#)):

Karachi, Pakistan

June 2025 to September

- Built responsive and dynamic web applications using React.js, integrating Three.js for interactive 3D modeling and visualizations. Built and styled modular UI components with TailwindCSS ensuring mobile-first responsiveness.
- Maintaining version control with Git and GitHub track development tasks

### Full Stack Developer (*Contract*):

Karachi, Pakistan

Full Stack Web App – Freelance April 2025 to

- Developed a Learning Management System (LMS) web application handling both frontend and backend development.
- Built a responsive frontend with React.js and developed backend APIs using Node.js, Express.js and MongoDB.
- Integrated API endpoints with frontend components and implemented key features.

### Internship([Tekrevol](#)):

Karachi, Pakistan

Frontend Developer Intern - August 2024 to November

- Developed responsive web applications using React.js, leveraging Ant Design for UI components.
- Built mobile-first features and styled reusable UI components using SCSS.
- Managed version control via Git and Bitbucket ensuring efficient collaboration and codebase integrity. Tracked tasks, bugs and project progress using Jira, aligning development with Agile workflows.

### Internship ([360xpertsolutions](#)):

Karachi, Pakistan

Frontend Web Development - January 2024 to July

- Contributed to responsive web applications using Next.js, leveraging UI libraries like Material-UI and Tailwind CSS.
- Collaborated with the development team to enhance user experiences. Managed application state with Redux Toolkit and integrated front-end components with backend services using PostgreSQL.

## Skills

— **Programming Languages:** JavaScript, TypeScript, Python

— **Frontend Development:** HTML, CSS, TailwindCSS, JavaScript, ReactJS, React Native

— **Backend Development:** NodeJS, ExpressJs, Fast API, Hono

— **Version Control & Database:** Git, GitHub, Bitbucket, Docker, MongoDB, PostgreSQL, Supabase

## Certifications

---

— ***Certifications:*** Meta Front-End Developer ([Coursera 2024](#)), Python programing for everybody ([Coursera 2023](#)),
